TO ADVERTISERS. The circulation of the Faily and Tri-Weekly editions of the Patriot, combined, exceeds largely advertising The Patriot therefore, is the best advertising medium in the city.

More New Jos Type .- The Patriot officee has just received a very large assortment of job type which, in addition to its former stock, makes its ing expellent and experienced job-workmen, this establishment is prepared to execute any and all kinds of job-printing in most superior style, upon RSH & FRENCH LINENS vary short notice and on the most reasonable terms, Call in.

We are told that a number of suspicious characters have been prowling about the city for several days past, Our city police are usually on the alert for such "birds," they will be quite likely to get their just deserts if they attempt any of their professional operations.

Lindsley, the great Real Estate Broker, is out this morning with a list of property for rent and sale, to which we invite attention. This opportunity to get good bargains is better than any offered recently.

PATENT BARREL MACHINE .- Our friend R.v. Mr. Campbell is negotiating to introduce Croxier's Patent Machine for making floor and other barrels the hoops are cut to the proper length and the locks cut in them ready for setting up the barrel. We need not say that such a machine would be of unspeakable advanvantage to our barrel-using | Which we will sell at as low prices as community.

It is warranted to give satisfaction or no charge. The testimonials in its layour are many and known to be of the most respectable in New York.

Mr. Campbell is Agent for the Southern States. Those interested in this improved patent will learn the particulars of it by addressing Rev. John P. Campbell, Nashville Tennessee.

ROBERTSON DRAMATIC CLUB .- With commendable liberality this Amsteur Club gives another entertainment to-night for the benefit of the indi- RICH DRESS GOODS. gent of this city. Aithough Nashville has, per" haps, as few or less people who are pinched with want during the sever'ty of the winter season than SILKS, any other city in the Union, still unfortunate beings are to be met with every few squares who have scarcely enough of the necessary means of subsistance to enable them to eke out even a miserable existence. Thus far the more fortunate portion of our citizens have responded nobly to the calls of charity which have been made upon them from time to time. Another appeal similarly answered will farnish relief to many sufficient to enable them to live in comparative comfort until the more favorable weather of the approaching Spring affords opportunities for employment,

The bill selected for the entertainment to night is an excellent one, and we learn that much time study has been given by the various members who are to appear to their parts. We hope to see a

St. VALENTINE'S DAY .- This important season, the "day of days" to our young friends, is rapidly approaching. We notice that a large and beautiful assortment of Valentines may be seen at M C. Bruce's, on Cedar Street, where they may be had at wholesale or retail at very reduced figures. In every variety of Patterns, Colors, Mrs. Lloyd also has them for sale,

A SELL .- One of the best sells we have heard of lately was perpetrated yesterday at the wharf upon several of the steamboat "runners." It seems | FRENCH, that a couple of individuals who are not altogether free from a vein of dry humor and know a thing or two about steamboating, but who are comparatively strangers here, took it into their heads to have a little fun of their own with the aforesaid Of all qualities and new styles -- some "rouners," and accordingly donned a country habit, equipped themselves each with a pair of saddie hags, and soon made their appearance upon the levee. Sauntering along and staring at the signs, they soon attracted the notice of the everattentive and keen-scented "runners," who always have an anxious solicitude for the wellfare of pass sengers generally and steamboats in particularwho forthwith beset them upon all sides with such gratuitous information as "runners" can always fur nish, to wit: that such a boat was bound directly for the point of destination to which the heroes of FANCY AND SOLID COLORED the hoax had expressed a desire to go, and that, furthermore, the said boat was the only one, positively, going to the port mentioned. Now, it seems that the boat for which the "run sers" were engaged intended only to go but a portion of the distance which intervenes between this city and the point named by our quasi passengers, and that another boat was laying at the wharf destined for just the place designated. Such arguments, such inducements and such pertinacious arts to secure their prey as were used, "runners" only know how to make use of. The joke was heightened by the appearance of the a third party, in the secret, who endeavored to persuade the beset individuals to take still another boat. At last, when a largo erowd had assembled, the joke leakes out, and the loud and boisterous laughter which followed the depoument told the "professional" employees that they had been egregriously sold.

FINE PEACHES.—The fluest peaches we have seen this year, was a lot brought to market and exhibited yesterday. They were raised and dried by Mr. B. F. Hunt of Wilson. He refused \$5 per | Heavy 4-4, 7-8, 3-4 Sea Island Domes-

HARNESS AND SADDLE SHOP,--Rue Deaderickalways famous for the amount and various kinds of business done upon it, is becoming more than ever noticeable for the enterprise which characterizes it, A late addition to its business catablishments is the harness and saddle shop of C. L. Howerton, a few doors East of the Patriot office. With regard to the excellence of his work, it is not auriss to state that he took the premium upon a set of harness at the late Fair. It was a splendid specimen of work- Heavy Cotton and Linen Twilled for manship and pronounced by many to be the finest piece of harness-work they had over seen. Hendershott, A. R. Roscoe, Ewing & Brother, wholesale Josiah G. Brown. sept27-daw6m THE REIGN OF ART .- In this wonderful age, Art tays her passer touches on almost everything. The ceilings over us and the carpets we tread on, are hallowed by Art. Art winds the railway through the mountains and the mud; makes her machines of wood and iron, to act as if with knowledge and annihilates space with lightning tamed down to the tuteledge of a boy. Nothing is too lofty for her touch and nothing too humble. A new proof of this old conviction has just fallen under our notice, in the shape of a CATHARric Pill, from the Laboratory of that world renowned

Chemist, Dr. C. J. Aven. If we understand the subject, he has carried that article to the farthest perfection of which it is capable. Instead of H. G. McComas. mploying Drugs in its composition, as we have always hought the necessary and only way, he has with consumnate skill extracted the circues of the medicine to be amployed and combined them alone in their purity together. The composition is then mixed and rolled by machinery and steam power into a sperold pill which is wrapped in an enrelepe of gelatine, for protection from the effects of weather or time, and then thickly coated with sugar, to serve as its assport over the painte. Notwithstanding all the labored erfection they are offered to the Public at less than one cent each. However humble the department, we think this may be safely characterised as the consummation of Art in

its line .- Muruing Nonce But. Pianos and Music. - We learn that Horace Vaters, of 383 Broadway, N. Y., agent for the sale of many of the most celebrated makers of Pianos and Melodeous, is offering them at prices which we advise all who desire to purchase to avail themselves of. He is also selling his large and well-known Catalogue of Music at one-third off from the regular prices, and will forward the same free of postage. His offers to the trade, teachers, and schools, are of the most favorable character-all of which he will be able to fill to the letter, for having wisely adopted the cash system. The Horace Waters' Planos are known as among the very best. We are enabled to speak of those instruments with some degree of confidence, from personal knowledge of their ex-

cellent tone and durable quality .- N. Y. Koungelist.
